

ABOUT OUR KITTENS

Our breeding cats are evaluated for the following most common genes (listed below) and all other identified gene disorders (50 at present) and all are negative:

- PK Deficiency (Pyruvate Kinase Deficiency)
- PKD (Polycystic Kidney Disease)
- HCM DNA (Hypertrophic Cardiomyopathy)
- SMA (Spinal Muscular Atrophy)

We have our own cardiologist. This is important as all heart scans are reviewed for any changes. All annual scan results are located on my males/females page of my website: www.highlandermainecoon.com. All these preventative tests we do is not to say our cats cannot develop disease; we take every measure to ensure we have the healthiest cats possible.

- HCM Echo (Annual sonogram scan of the heart)
- Hip X-rays to detect hip dysplasia
- Tested and negative for the FIV/FeLV (Feline Immunodeficiency Virus/Feline Leukemia Virus)

NOTE: Please beware of breeders that DNA Test “only” for the HCM gene and do not do echocardiograms. DNA and echocardiogram tools used together is the only way to detect heart disease. Even though we do extensive testing, that does not mean a cat cannot develop this disease. We take every measure to ensure they do not.

Our kittens are ready to leave at 12 weeks of age. Each kitten comes with:

- Two vaccinations (8 and 12 weeks) Merial Purevax
- 30-day trial insurance plan with Trupanion
- 2-year genetic health guarantee
- Worming
- Two vet wellness checks

NOTE: We do not ship pet kittens; we can recommend a reliable airport to airport in cabin service.

RESERVATION INFORMATION

If you are interested in adopting a kitten from us, please feel free to call/text (614)266-3502 or email tsignore@att.net.

- Our kittens are typically reserved prior to or right after birth
- Companion kittens ***without breeding rights*** are **\$2300.00**
- To secure a reservation spot for upcoming litters, let us know and you are added to the list and will contact you when we have availability
- Once kittens are born, you are contacted in the order of the receipt of being added to the reservation list
- Once a kitten selection is determined, a **\$300.00** hold fee is required. Once a hold fee is placed, it is **NOT REFUNDABLE FOR ANY REASON**, should you change your mind.
- When we receive your \$300.00 hold fee, we will send you an agreement to sign. Our kittens are not considered adopted until you return the signed hold fee agreement.

CONTRACT INFORMATION

Our sales contract is provided and signed when you pick up your kitten and requires, and is not limited to:

- Cats must always be indoors
- No declawing allowed
- 2-year genetic health guarantee, a replacement kitten is offered should something happen
- No selling or rehoming of the cat for ANY REASON unless you have breeder written permission
- **Must** be spayed or neutered at six months of age and proof provided

HONEST AND TRANSPARENT IN ALL WE DO

Owning a Maine Coon is a wonderful experience and it is a happy time for all. We provide trust and open communication and provide all the details needed in the adoption process.

Credentials:

- 28-years owning/breeding this breed
- Top honors yearly in the show ring
- Worldwide accomplishments
- Collaboration with my Veterinarian of 16-years

Breeding philosophies are sound. We have bred for many years and are committed to improving the breed. Generations of experience with our lines and only work with a few very responsible breeders to improve the breed.

- Health and temperament are first and foremost
- No marketing gimmicks to “sell” our cats
- Fully vetted (no giving our own shots or cutting corners)
- Breeder support a message away
- In home love; extensive socialization with no caging of cats
- Consistent show results and recognition of our breeding cats
